

Uh Oh...

You just incorrectly drilled an opening in your metal panel...

DON'T PANIC!

If you need something sealed... *Ask the Experts.*

WHEN FASTENING JUST ISN'T ENOUGH.

Seelskrews® & Seelbolts®

- O-rings sit in specially designed grooves, making for superior sealing and 360° metal-to-metal contact when fully compressed.

Seeloc® Washers & Seelnuts®

- Single-piece designs, with Silicone (standard) molded into a cavity in the hardware, offer a more secure and reliable seal.

All Sealing Hardware is designed to withstand multiple uses.

Both Imperial & Metric sizes available.

All products are RoHS & DFARS Compliant.

UL-Recognized hardware available (IP Rating of IP66/68).

Proudly manufacturing Sealing Solutions in the U.S.A. for 70 years.
