

◆ CHARACTERISTICS

Typical characteristics are shown below. (Capacitances are 0.1 μ F)

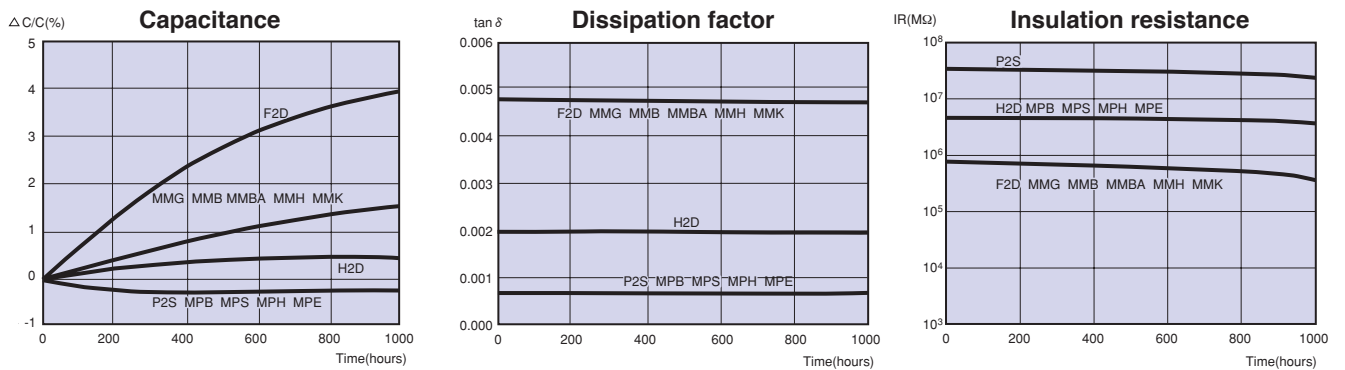

◆ TEMPERATURE CHARACTERISTICS

◆ HIGH TEMPERATURE LOADING (Temperature : 105 $^{\circ}$ C or 85 $^{\circ}$ C or 70 $^{\circ}$ C, Test voltage : 140% or 125% of rated voltage)

◆ MOISTURE RESISTANCE LOADING (Temperature : 40 $^{\circ}$ C, Humidity : 95%, Test voltage : rated voltage)

◆ FREQUENCY CHARACTERISTICS
